

# GopiLac®

RUMEN BYPASS FAT

## Better Fertility, More Milk

GopiLac® is the 1st generation bypass fat with the combination of palm fatty acids and calcium. It is regarded as undisputed 1st choice of dairy farmers world wide. The calcium mixture helps to protect the breakdown offatty acids into rumen.

## Ingredients

Palm Oil Fatty Acids, Calcium, Water (Moisture)

## Intended Use

GopiLac® can be used as a rumen bypass or protected fat along with combination of calcium and is high energy feed additive for ruminants.
